💻 GitHub: [github.com/sri1800](https://github.com/sri1800)

- **Dedicated Full Stack Java Developer** with 3 years of experience in software development, IT operations, and technical support. Skilled in developing scalable web applications using Java, Spring Boot, and modern frontend frameworks like React and Angular. Strong in problem-solving, database optimization, and deployment using Docker. Actively seeking to contribute technical expertise to innovative and impactful projects.

## TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Bootstrap, JavaScript, React JS, Angular
- **Backend:** Java, JDBC, Hibernate, Servlets, JSP, Spring, Spring Boot
- **Databases:** SQL, MySQL, H2, Firebase.
- **Deployment/Tools:** Docker, Render, Git, GitHub, Netlify, Postman

## PROFESSIONAL EXPERIENCE & PROJECTS

- Project Name** : **Web-Based User Management System**  
**Client** : TalentXP  
**Role** : Full Stack Java Developer  
**Duration** : October 2024 – Present  
**Environment** : Java, Spring Boot, Angular, MySQL, Docker  
**Tools** : Postman, Git, Render  
**Project Description** : A web-based system developed to manage user roles and tasks efficiently with secured API endpoints and dynamic UI.  
**Key Contributions** :
  - Designed and developed REST APIs for registration, login, and task management using Spring Boot.
  - Implemented JWT-based authentication and role-based access control.
  - Developed Angular-based frontend for dynamic user interaction.
  - Used Docker for containerization and deployed the application on Render.
  - Tested APIs using Postman and versioned code with Git.
- Project Name** : **Duty Allocation System**  
**Client** : Border Security Force (BSF – Jammu Kashmir)  
**Role** : Database Administrator  
**Duration** : December 2022 – August 2024  
**Environment** : Java, MySQL  
**Project Description** : A secure system to allocate duties for personnel based on service history and availability.  
**Key Contributions** :
  - Designed scalable database schema and optimized complex SQL queries.
  - Enabled automated service record-based duty assignment.
  - Implemented backup, recovery, and high availability mechanisms.
  - Collaborated with developers to improve security and data validation checks.

**3. Project Name** : **Order Management Dashboard**  
**Client** : Tata Consultancy Services (TCS – Chennai)  
**Role** : Java Programmer  
**Duration** : September 2021 – December 2022  
**Environment** : Java, SQL  
**Project Description** : A manufacturing domain dashboard for real-time order tracking, analysis, and production optimization.  
**Key Contributions** :

- Monitored and supported production issues, ensuring adherence to SLAs.
- Performed RCA and debugging for recurring application faults.
- Enhanced dashboard efficiency by tuning backend queries.
- Delivered monthly performance reports and incident logs.

## ACADEMIC PROFILE

Qualification	Institution	Board/University	Result	Year
B.Sc (M.P.CS)	Silver Jubilee Govt. Degree College (A), Kurnool	Rayalaseema University	<b>9.29(CGPA)</b>	2018-21
Intermediate	NRI Junior College, Eluru	BIEAP	<b>95.9%</b>	2016-18
X Class	St. Xavier's EM High School, Eluru	SSC	<b>9.3(CGPA)</b>	2015-16

## PERSONAL DETAILS

- **Father's Name:** Chittela DurgaRao
- **Date of Birth:** August 18, 2000
- **Marital Status:** Single
- **Languages Known:** English, Telugu, Hindi

## DECLARATION

The above-mentioned details are true to the best of my knowledge.
